

Ethics Pledge

I understand the Graduation Project, in all of its phases, is to be completed independently under the supervision of a mentor, academic advisor, and other school staff deemed necessary with support from my family, friends, and community. I understand the abovementioned individuals will be available to help guide me through this process and will make suggestions as needed.

I understand if I commit plagiarism in the research paper or falsify the paper, product, portfolio, and/or presentation <u>in any way</u>, I will not successfully complete the Graduation Project and will not meet this graduation requirement.

I understand I must be responsible by meeting deadlines, completing requirements, and making sure the required elements, as specified by the Graduation Project Advisor, are completed with integrity and attention to detail.

I understand I must independently create a presentation to be given before a panel of judges; this presentation will clearly exhibit the research and real-world applications and accomplishments of my entire Graduation Project experience.
